Subject: JFC 3&4

Hi Terry,

It turns out we don't need to change the plans but I did put the wrong square footages on the application. The notes sheet (A-0.1) to the plans has the *foot print* square footages. This is what David Barnes wanted on that sheet and comes from Sheet A-1.1.

The correct square footages for the application for both 3 & 4 are:

Main Floor – 637.14
Upper Floor – 749.51
Garage – 230.33

Sorry for the confusion!
